Blood Bank Services at Lima Memorial Health System

- Type, screen and crossmatch specimens are valid for 72 hours.
- Patients may be drawn up to 14 days prior to a scheduled surgery or transfusion if they have not received a blood transfusion or were pregnant (regardless of outcome) in the preceding 3 months.
- Type and screens for surgical procedures will automatically be converted to a 2-unit crossmatch if atypical antibodies are present.
- HLA -matched and irradiated products are available upon request.
- Therapeutic phlebotomies are scheduled through the Medical Oncology department, 419-998-4477.
- Autologous and directed blood donations are available through the American Red Cross. Contact SpecialCollections@redcross.org or M-F at 1-800-634-9069.
