Request for Physician Name and Number

LMHS endeavors to provide high quality, timely results so patients are able to receive appropriate care as quickly as

possible. While providing esoteric reference testing, there are times when we need to contact ordering physician directly. The following are 2 examples:

- When necessary to performance of a test, ordering physician's name and phone number are requested as part of "Specimen Required." This information is needed to allow our physicians to make timely consultations or seek clarification of requested services. If this information is not provided at time of specimen receipt, we will call you to obtain the information. By providing this information up front, delays in patient care are avoided.
- In some situations, additional information from ordering physician is necessary to clarify or interpret a test result. At that time, LMHS will request physician's name and phone number so that one of our staff can consult with physician.

We appreciate your rapid assistance in supplying us with ordering physician's name and phone number when we are required to call. Working together, we can provide your patients with the highest quality testing services in the shortest possible time.
